

GerActors Zoom Performance – What to Expect and How to Join

The show is 30-45 minutes long. At the end you are more than welcome to stay on to chat and share stories.

You will want a quiet space, reliable internet, and a device with speakers (computer, smartphone, tablet, ipad).

Performances will take place over Zoom as a webinar. If you are not familiar with Zoom, below are instructions on how to join the performance.

You will need a link and passcode, which will be sent in an email. If you did not receive an email, check your Spam folder or email us at geriactors.friends@gmail.com (at least one day before the show).

To join the performance, click the link.

A pop up should appear asking **Open zoom.us?**

If you have Zoom downloaded on your device click **Open zoom.us** or **Launch Meeting**.

If not, click cancel and then select **Join from Your Browser** at the bottom of your screen.

*You may be asked to **Register for the Webinar** (this is the performance) using your name and email address. This info will not be saved or used by GeriActors.*

Enter your name. You can choose your full name, first name, nickname. Whatever you are comfortable with people seeing.

You will then be asked to enter the **Meeting Passcode** (the 6-digit number you received in the email) and your **Email Address**. Click **Join**.

Before the show begins everyone will be in the virtual lobby. We will open the webinar 5-10 minutes before the show.

When the webinar begins you will want to select **Join with Computer Audio** or **Wifi** so that you can hear the performance.

Your microphone and video should be automatically turned off. If not, we will be able to help you with this.

And that is it! You are in the Zoom performance and ready to watch the show.

Throughout the performance we will share music, sound effects, and photos, but don't worry – we will be in charge of the tech.

Thank you.
